EDUCATION

Rhodes College

May 2024

Bachelor of Science in Computer Science

Memphis, Tennessee

- **Related Coursework:** Object Oriented Programming, Data Structures and Algorithms, Machine Learning, Advanced Algorithms, Software Engineering, Databases, Bioinformatics, Virtual Reality and Graphics, Calculus 2, Discrete Mathematics, Senior Seminar

PROJECTS

CuisineSync

- Designed and implemented a **login system** with email-password authentication using **MongoDB Realm Database** and **Datastore**, enabling persistent login states.
- Built a map-based exploration feature with **Google Maps SDK**, integrating real-time location tracking via the Fused Location Provider API and dynamic camera updates. Managed **database migration** seamlessly and navigated large codebases effectively.
- Developed reusable **MVVM** components and used **Kotlin Coroutines** for asynchronous data fetching and smooth user interactions.
- Applied lifecycle-aware components for efficient **fragment lifecycle** management and optimized **XML layouts** for performance.
- **Skills:** Kotlin, XML, Android Development, Project Management, Leadership, Agile, Jira, MongoDB

ChampNet

- Developed **neural network models** (LeNet, AlexNet) to classify League of Legends champion archetypes.
- Processed and resized **datasets** using **OpenCV**; implemented **data augmentation** techniques.
- Trained models using **TensorFlow**, achieving high accuracy through validation and testing.

DataCook

- Developed a full-stack web app with **Flask** and **PostgreSQL** for recipe management.
- Features include **user authentication**, **AJAX-based dynamic updates**, cookbook creation, and **responsive design**.
- **Skills:** Flask, PostgreSQL, HTML, CSS, JavaScript, Web Development, Scrum

EXPERIENCE

IT Help Desk Contract | Baptist Memorial Hospital.

August 2024- August 2024 /October – November 2024

- Managed incident and service requests using **ServiceNow**: Logged, tracked, and resolved over **200 IT service Tickets** and incidents using ServiceNow, maintaining a high first-call resolution rate.
- **Supported EPIC software.** Provided **end-user support** and troubleshooting for **EPIC**, assisting healthcare providers with electronic medical records (**EMR**) and other critical applications.

Technology Coach | CodeCrew

May 2023 - Present

- Provide **mentorship** and **instruction** in coding and technology to students, promoting digital skills and education.
- Teach coding and technology concepts to children K-9 every day after school, fostering a hands-on learning environment.
- Set up and navigate robotics, assisting with **software installation** and **troubleshooting**, and providing guidance on how to use different online tools and resources.

Senior Intern | Bonner Scholars Program, Rhodes College

August 2020 – May 2024

- Managed and supervised intern activities using **task automation software** to streamline community service project execution.
- Coordinated the first annual fall festival, employing collaborative platforms (**Slack**, **Microsoft Teams**) and **data-driven decision-making** to ensure successful event implementation.
- Integrated software solutions (**web-based dashboards**) to optimize project workflows and improve efficiency.

Public Relations Manager | African Student Association, Rhodes College

April 2023 – May 2024

- Led digital marketing and public relations efforts, utilizing **content management systems** and **social media analytics** to enhance community involvement.
- Utilized **data-driven approaches** to measure and improve the impact of online content and cultural events.
